

PAIN RELIEF WITHOUT DRUGS

Founded in Dallas, TX in 2004, Avazzia designs, manufactures, markets and distributes scientifically advanced FDA cleared medical devices for management of pain. The products use patent pending BEST™ technology which is Bio-Electro Simulation Technology. Interactive feedback is the body's response to the stimulus (such as micro-current) and technology's ability to detect, measure, analyze and respond to the body.

- ISO 13485 certified
- FDA cleared
- CE approved
- CB certified

Pain Relief Without Drugs

Avazzia BEST-RSI applies advanced neuromodulation technology and unique complex waveform streams of high-voltage microcurrent pulses for effective pain relief.

Interactive chirp and ring indicate when the tissue is changing or has stopped changing.

The US FDA has reviewed and cleared the Avazzia BEST-RSI™ device for symptomatic relief and management of chronic intractable pain and adjunctive treatment in the management of post-traumatic and post-surgical pain.

"After spending eight hours a day using a computer mouse, I began suffering from severe numbness in my right hand and arm. I was introduced to the Avazzia device and began seeing improvement almost immediately. Within six months I was totally symptom-free and able to avoid surgery (which I was told was my other option)."

--- Dianne Stultz, Plano, TX

PRESCRIPTION LEVEL PAIN RELIEF BEST-RSI™ DEVICE

- Advanced neuromodulation signals maximize pain relief.
- Can be used by itself or with accessories.
- 2 AA battery operated.
- Manufactured in Texas and sold globally
- Stronger modes for chronic pain
- FDA 510k cleared microcurrent TENS for pain relief.
- Manufactured in Texas and sold globally

Easy To Use

The Avazzia line of BEST™ medical devices incorporate 4 operating modes per device accessed by simply pressing the Mode switch.

Power levels are accessed by pressing “+” and “-” switches. Simple, easy to see LEDs that indicate different modes and low battery indicator along with automatic shutoff are standard features.

NOTE:
BEST™ devices are even more convenient with compatible conductive garments.

Directions of Use

1. Turn on the device.
2. Connect the device to the affected area by either:

- a. placing the on-board electrodes firmly on skin

or

- b. attaching electrodes to skin and then to device.

3. Select a comfortable power level.
4. Select an operating mode.
5. Apply for several minutes.
6. Select the next mode and repeat.
