

BEST-RSI Product Description

The BEST™ line of products are hand-held, battery-operated, electro-stimulation medical devices. The Avazzia BEST-RSI is designed for at-home or clinical use and offers easy-to-use features including four popular frequencies to allow patients to administer microcurrent pain relief at home or healthcare providers to administer powerful microcurrent treatment in the office.

Research has shown microcurrent offers long-term pain relief without drugs or surgery. It is not habit-forming and non-addictive.

PRODUCT SPECIFICATIONS	
SIZE AND WEIGHT	Size: 117mm X 64mm X 33mm. Weight (device only): Approx. 128 grams (4.5 oz). Weight (with batteries): Approx. 173grams (6.1 oz)
FREQUENCY, HZ	4 Hz to 352 Hz
POWER SOURCE	2 AA 1.5V DC batteries
OUTPUT	Output Voltage: 20 V to 500 V Output Current: 2 mA to 90 mA Current Density: 0.1 to 966 uA/cm ² Power Density: 0.1 to 1.2 mW/cm ²
PULSES	Pulse Duration: less than 2 ms
WAVEFORM	Pulsed, damped, biphasic sinusoidal
AUTOMATIC SHUT-OFF	60 minutes
PRODUCT INFORMATION	
MODES OF OPERATION	Relax, Deep Stimulate, RSI, Acute
AUDIBLE INDICATIONS	30 second tick, 2 minute double beep, chirp in Assess mode at start of application, ring in Assess mode indicating progress
VISUAL INDICATIONS	Mode selection and power intensity indicating LEDs
PRODUCTION	Manufactured by Avazzia in U.S.
AVAILABILITY	By prescription only in the U.S. For assistance in filling prescription, contact Avazzia.
ACCESSORIES (SOLD SEPARATELY)	Y-electrode, adhesive conductive pads, brush electrode, pencil electrode
CLEARANCES	ISO 13485 international certification CE approved, CB certified HealthCanada certified
WARNINGS	Not to be used by those with pacemaker or other implantable electrical device. Not to be used by pregnant or nursing women. Do not use directly over carotid artery or cause current to run transcranially. Do not use directly on open wounds.
